## *Authors' Proposal Form*

NCBA, the largest vertically integrated STM publisher of Eastern India with the fastest growing marketing network throughout Afro-Asian countries, invites well worked out manuscripts in different subjects for the undergraduate and postgraduate level students. The manuscripts need to be original and conforming to the best ones of the international standard. However, it may require some time for the refereeing decision to come out after thorough examination of the minutest details of the manuscript/typescript by the board of readers. Subsequently if any revision, addition, alteration or editorial emendation is required in the text, that has to be done by the concerned authors or editors following official communication from the publisher.

This proposal form, however, does not contain any commitment of the publisher to publish the manuscript/typescript in question. It rather depicts an assurance of the proposed manuscript/typescript being seriously considered for publication in due course. Prior to the making of c.r.c. a formal agreement shall be entered into at a later date, if the publishing decision comes out in the affirmative with mutual consent of author and publisher.

This proposal form needs to be filled in with as much details as possible, so that the publisher gets a clear view of the prospect of the proposed book. In many cases separate annexures are to be attached herewith to furnish maximum amount of information. The detailed syllabus of the subject in all major Universities is mandatory to be sent with this form.
